- (B) FINAL REPORT.—At the end of the grant period, each FQHC shall submit a final report with evaluation data analysis and conclusions related to the outcomes of the demonstration project.
- (2) TECHNICAL ASSISTANCE REPORTING.—
- (A) ANNUAL PROGRESS AND FINANCIAL RE-PORT.—For the duration of the contract under subsection (e), each technical assistance provider shall submit to the Secretary an annual progress and financial report indicating activities conducted under such contract.
- (B) FINAL REPORT.—At the end of the contract period, each recipient of a technical assistance contract under subsection (e) shall submit to the Secretary a final report that includes—
- (i) an analysis of comparative data related to effectiveness and feasibility of projects implemented at the FQHCs, workforce training, and achievement of outcomes at the FOHCs:
- (ii) overall recommendations for system improvement and changes that would allow the demonstration projects to be expanded;
- (iii) an outline of the project results; and (iv) a plan that outlines opportunities and vehicles for the dissemination of cross-site evalution results, findings, and recommendations.
- (g) AUTHORIZATION OF APPROPRIATIONS.-
- (1) IN GENERAL.—To carry out the demonstration project grant program described in subsection (a), there are authorized to be appropriated \$10,000,000 for fiscal year 2010, and such sums as may be necessary for each of fiscal years 2011 through 2014.
- (2) TECHNICAL ASSISTANCE.—The Secretary shall reserve not less than 10 percent of the amounts appropriated under paragraph (1) to carry out the technical assistance program described in subsection (e).

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 208—TO CONSTITUTE THE MAJORITY PARTY'S MEMBERSHIP ON CERTAIN COMMITTEES FOR THE ONE HUNDRED ELEVENTH CONGRESS, OR UNTIL THEIR SUCCESSORS ARE CHOSEN

Mr. REID submitted the following resolution; which was considered and agreed to:

S. RES. 208

Resolved, That the following shall constitute the majority party's membership on the following committee for the One Hundred Eleventh Congress, or until their successors are chosen:

COMMITTEE ON THE JUDICIARY: Mr. Leahy (Chairman), Mr. Kohl, Mrs. Feinstein, Mr. Feingold, Mr. Schumer, Mr. Durbin, Mr. Cardin, Mr. Whitehouse, Ms. Klobuchar, Mr. Kaufman, Mr. Specter, and Mr. Franken.

SENATE RESOLUTION 209—RECOGNIZING THE 40TH ANNIVERSARY OF THE NATIONAL EYE INSTITUTE AND EXPRESSING SUPPORT FOR DESIGNATION OF THE YEARS 2011 THROUGH 2020 AS THE "DECADE OF VISION"

Mr. ISAKSON (for himself and Mr. CARDIN) submitted the following resolution; which was considered and agreed to:

S. Res. 209

Whereas vision impairment and eye disease are major public health problems, especially due to the aging of the population;

Whereas there is a disproportionate incidence of eye disease in minority populations;

Whereas vision loss as a result of diabetes and other chronic diseases costs the people of the United States \$68,000,000,000 each year in health care expenses, lost productivity, reduced independence, diminished quality of life, increased depression, and accelerated mortality;

Whereas approximately 38,000,000 people in the United States over 40 years of age currently experience blindness, low-vision, or an age-related eye disease, and this number is expected to grow to 50,000,000 by 2020, as the tidal wave of approximately 78,000,000 baby boomers who will begin to reach 65 years of age in 2010, many of whom will continue working well beyond age 65 crashes:

Whereas, in public opinion polls conducted during the past 40 years, people in the United States have consistently identified fear of vision loss as second only to fear of cancer, and, as recently as 2008, a study by the National Eye Institute showed that 71 percent of respondents indicated that a loss of eyesight would have the greatest impact on their life:

Whereas, with wisdom and foresight, Congress passed an Act entitled "An Act to amend the Public Health Service Act to provide for the establishment of a National Eye Institute in the National Institutes of Health" (Public Law 90–489; 82 Stat. 771), which was signed into law by President Johnson on August 16, 1968;

Whereas the National Eye Institute (in this resolution referred to as the "NEI") held the first meeting of the National Advisory Eye Council on April 3, 1969;

Whereas the NEI leads the Federal commitment to basic and clinical research, research training, and other programs with respect to blinding eye diseases, visual disorders, mechanisms of visual function, preservation of sight, and the special health problems and needs of individuals who are visually-impaired or blind:

Whereas the NEI disseminates information aimed at the prevention of blindness, specifically through public and professional education facilitated by the National Eye Health Education Program;

Whereas the NEI maximizes Federal funding by devoting 85 percent of its budget to extramural research that addresses a wide variety of eye and vision disorders, including "back of the eye" retinal and optic nerve disease, such as age-related macular degeneration, glaucoma, and diabetic retinopathy, and concomitant low vision, and "front of the eye" disease, including corneal, lens, cataract, and refractive errors:

Whereas research by the NEI benefits children, including premature infants born with retinopathy and school children with amblyopia (commonly known as "lazy eye");

Whereas the NEI benefits older people in the United States by predicting, preventing, and preempting aging eye disease, thereby enabling more productive lives and reducing Medicare costs;

Whereas the NEI has been a leader in basic research, working with the Human Genome Project of the National Institutes of Health to translate discoveries of genes related to eye disease and vision impairment, which make up ¼ of genes discovered to date, into diagnostic and treatment modalities;

Whereas the NEI has been a leader in clinical research, funding more than 60 clinical trials (including a series of Diabetic Retinopathy Clinical Trials Networks, in association with the National Institute for Diabetes and

Digestive and Kidney Disorders) which have developed treatment strategies that have been determined by the NEI to be 90 percent effective and to save an estimated \$1,600,000,000 each year in blindness and vision impairment disability costs;

Whereas the NEI has been a leader in prevention research, having reported from the first phase of its Age-Related Eye Disease Study that high levels of dietary zinc and anti-oxidant vitamins reduced vision loss in individuals at high risk for developing advanced age-related macular degeneration by 25 percent, and, in the second phase of Age-Related Eye Disease Study, studying the impact of other nutritional supplements;

Whereas the NEI has been a leader in epidemiologic research, identifying the basis and progression of eye disease and the disproportionate incidence of eye disease in minority populations, so that informed public health policy decisions can be made regarding prevention, early diagnosis, and treatment:

Whereas the NEI has been a leader in collaborative research across the National Institutes of Health, working with the National Cancer Institute and the National Heart, Lung, and Blood Institute to identify factors that promote or inhibit new blood vessel growth, which has resulted in the first generation of ophthalmic drugs approved by the Food and Drug Administration to inhibit abnormal blood vessel growth in the form of age-related macular degeneration commonly known as the "wet" form of age-related macular degeneration, thereby stabilizing, and often restoring, vision;

Whereas the NEI has been a leader in collaborative research with other Federal entities, and its bioengineering research partnership with the National Science Foundation and the Department of Energy has resulted in a retinal chip implant, referred to as the "Bionic Eye", that has enabled individuals who have been blind for decades to perceive visual images;

Whereas the NEI has been a leader in collaborative research with private funding entities, and its human gene therapy trial with the Foundation Fighting Blindness for individuals with Leber Congenital Amaurosis, a rapid retinal degeneration that blinds infants in their first year of life, has demonstrated measurable vision improvement even within the initial safety trials;

Whereas, from 2011 through 2020, the people of the United States will face unprecedented public health challenges associated with aging, health disparities, and chronic disease; and

Whereas Federal support by the NEI and related agencies within the Department of Health and Human Services is essential for prevention, early detection, access to treatment and rehabilitation, and research associated with vision impairment and eye disease: Now, therefore, be it

Resolved, That the Senate—

- (1) recognizes the 40th anniversary of the NEI, commends the NEI for its leadership, and supports the mission of the NEI to prevent blindness and to save and restore vision;
- (2) supports the designation of the years 2011 through 2020 as the "Decade of Vision", to— $\,$
- (A) maintain a sustained awareness of the unprecedented public health challenges associated with vision impairment and eye disease; and
- (B) emphasize the need for Federal support for prevention, early detection, access to treatment and rehabilitation, and research; and
- (3) commends the National Alliance for Eye and Vision Research, also known as the "Friends of the National Eye Institute", for

its efforts to expand awareness of the incidence and economic burden of eye disease through its Decade of Vision 2011–2020 Initiative
